

DPRA Directors unanimously approved this Motion on August 9, 2024

To establish a Grant Program which will allow for reimbursement of certain expenses incurred while promoting the Dartmoor pony in America.

This Grant Program will be under the direction of the Directors of the DPRA and available to DPRA members owning ponies registered with the DPRA.

Directors will decide the amount available to the Grant Program each year.

Grant application will be considered on an individual basis and should be received prior to the activity. Consideration will be given to applications received within 60 days after the activity at the latest. Receipts or proof of expenses incurred will be required prior to reimbursement. An annual amount of \$500 will be the maximum amount for any individual on an annual basis.

Activities that promote the Dartmoor breed will be considered. A few possibilities are:

Horse Expo or other public demonstration that would have a significant audience.

Competition entry or stabling for competitions in any discipline that are recognized by the governing association for that discipline.

Purchase of professional photography or video of a Dartmoor pony that would allow the owner and DPRA to publish the photography or video for promotion of the breed.
